Tales That Heal: The life of every man or woman is a constant unfoldment of the one story-the hero's journey. For the man or woman on a spiritual path there is an important difference; awareness. Together we will examine some tales designed to bring us to awareness. Throughout the history of humankind the spiritual traditions of the world have employed stories as a means of attuning our awareness to deeper levels of being. Beyond the words, symbols, and action, the story leads us to a wordless and formless intuitive understanding. Together we will examine some tales designed to bring us to awareness.

Love and Intuition: Opening the Inner Vision-The universal experience of love has been described as a pathway to faultlessly clear space within. Called by many names in many traditions "the still small voice", "the wisdom eye", "buddhi", or the intuition, it is a source of our deepest realizations in religion, science, art and daily living. This talk presents an approach to understanding the process of intuition so that we may deepen it in our daily lives.

Tim Boyd is the Vice President of the Theosophical Society in America. He co-produced, narrated and conducted interviews for the Eternal Quest radio series, broadcast on stations in the U.S and Canada. He is a founding member of a spiritual community which was active for more than 25 years. It was situated in Chicago's inner city in what had been a deteriorating urban area. The group worked with at risk youth, established organic food gardens on vacant lots, purchased and renovated numerous buildings in the area, and placed bee hives on the roofs of buildings. He has lectured and conducted workshops throughout the U.S and in Asia. He currently serves as President of the Theosophical Order of Service.

Although there is no charge for these programs donations are appreciated for the continued work of The Buffalo City of Light Study Center. We are a branch of The Theosophical Society in America. The Theosophical Society in America is a branch of a world fellowship and membership organization dedicated to promoting the unity of humanity and encouraging the study of religion, philosophy and science so that we may better understand ourselves and our relationships within this multidimensional universe. The Society stands for complete freedom of individual search and belief. For more information please visit: www.theosophical.org
