2010 Annual Meeting

Camp Indralaya, Orcas Island

May 13 -16, 2010

The Awakening of the Cosmos

Theosophy postulates a cyclic model for the manifestation of the universe. It teaches that once the phase of activity comes to an end the cosmos begins a process of dissolution, only to reappear after a period of rest merged with the ever-existing Unity. Based on the information given in the “Proem” and the first three Stanzas of the Secret Doctrine Vol I, we will explore the pre-cosmic state of the universe and the process of its re-awakening. We will discuss the nature of the Absolute Reality and the different stages of manifestation that take place through the three Logoi. The classes will be presented considering the study of the Secret Doctrine as a form of yoga which can awaken our spiritual mind.

Program:

Thursday, May 13, 2010

- **Evening program and opening of session:** 8:00 pm - 9:00 pm: program *Introduction - The Study of the Secret Doctrine as a form of Yoga.*
