2012 : [videorecording] : or why the world isn't ending just yet / Jim Kenney. Wheaton, IL : Theosophical Society in America, c2010. 1 videodisc (110 min.)

The latest new age apocalyptic preoccupation is based on a curious misreading of the ancient Mayan calendar. This interpretation (rejected by Mayan elders and serious scholars alike) suggests that the calendar ending in 2010 portends a world-ending or at least world-changing cataclysm in that year. Jim Kenney examines a great story woven from poor scholarship and the hope of a better world.

Although we speak of the world "out there," the Buddha taught that the beginning and the end of the world is to be found within this body and mind. He encouraged us to use the reflective nature of the mind to see this world as it is being created based on our views, perceptions, and thoughts so that we can understand the power of intention.
