How Humanity Came into Being : the evolution of consciousness / Martin Lockley with Ryo Morimoto. Edinburgh : Floris, 2010. 358 p.

How Humanity Came into Being is our story - the collective story of all humankind. Life, from its earliest days, is a constant exploration of our physical, emotional, mental and ultimately spiritual relationship with the world. It is no wonder, then, that we ponder the perennial questions: where did we come from? What is our destiny as a species? Why do we have the miracle of consciousness and self-awareness, a sense of order, morality, purpose, and even intimations of the divine? This unique book explores such questions of existence.

Theosophical Perspectives on Dealing with Pain [videorecording] / Dora Kunz and Erik Peper. Wheaton, IL : Theosophical Society in America, c1985. 1 videodisc (33 min.)

How do Theosophical teachings help a person cope more effectively with physical or emotional pain? How do they help us face the death of a loved one? In this 1985 interview, Dr. Erik Peper discusses the Theosophical perspective on pain with Dora Kunz, then president of the Theosophical Society in America. Dora explains the importance of non-verbal communication when dealing with loved ones who are in the process of dying. Sometimes loving silence is more effective than mere verbal communication. Is there a way we can transcend pain? How can we detach ourselves from the pain? What is the effect of anger and resentment on pain? Can the experience of pain provide an avenue of spiritual growth? Dora Kunz gives her perspective on these questions based on a lifetime devoted to Theosophy and working with health care professionals.
